04 November 2016

Owner/Occupier

Dear Owner/Occupier

**RE: NEW HOUSING DEVELOPMENT
NEW HOUSE FARM, MICKLEOVER**

Barratt Homes North Midlands are pleased to confirm that works on the site access for our proposed new housing development is due to commence on the 14th of November.

The initial phase of works will concentrate on the construction of the northern access within the site, moving on to the main island construction in early 2017. This will require traffic management, lane closures and the set up of a contraflow. Advance warning notices will be erected in the coming months. It is anticipated the works will be complete by the end of June 2017

We appreciate that developments of this nature may cause some disruption to those living and working in close proximity, and for this we offer our sincere apologies in advance, we will however take every measure available to minimise disturbance and ensure the safety of the general public during operations on site.

Signage will shortly be erected at key junctions around the new development to direct construction traffic. Our construction teams will ensure measures are put in place to mitigate the effects of the construction works on the surrounding area to a practical working minimum in line with our submitted and approved construction method statement.

Should you have any further concerns or queries regarding the access works at this stage please do not hesitate to contact our appointed contractor Bridgebank 01623 277 266.

Yours sincerely

The Technical Team

Barratt Homes North Midlands
